

Governance Map — Printable Reference

Use this as a light architecture reference. It is not the weekly board.

Routing Architecture

Weekly Board

- > route ID / checkbox / annotation
 - > governance contract
 - > route card
 - > digital support index
 - > state source
 - > evidence / next pointer
-

Core Routes

ID	Domain	Use
WEEK-GOV	Weekly governance	Frame the week and active routes
BOOT	Daily execution	Start the day without reconstructing context
MAINT	Maintenance	Reduce friction and prepare execution
FOCUS	Deep work	Produce evidence
CLOSE	Daily close	Prevent context loss
NEXT	Continuity	Make restart cheap

Weekly / State Routes

ID	Domain	Use
CARRY-M	Project state	Micro project update
CARRY-W	Project state	Weekly project reconciliation
FIN-W	Finance	Weekly finance review
FIN-U	Finance	Urgent finance item
EXTERNAL	Externalization	Send, publish, contact, request feedback

Homeostasis Routes

ID	Domain	Use
BODY-GOV	Body / health	Log useful body signals
GYM-GOV	Gym / movement	Keep training governed
HOUSE-GOV	House ops	Keep environment from drifting
CLN-30	Cleaning	20-30 minute bounded reset

Capture

ID	Domain	Use
CAPTURE-GOV	Capture	Route free notes inside review/capture
CAPTURE-ROUTER	Capture	Action / state / archive / waiting / discard

Rule

The weekly board shows IDs. The route cards define action. The support index gives links. State sources hold truth. Evidence proves movement.
